## **Sneak Peek Game ①**

### **Play**

Shuffle the pack and place the deck of cards face down. The oldest player goes first and turns over the top 3 cards, placing them face up on the table. If they are a match then that player keeps them and turns up the next three (cards can match in 3 ways, as shown on the back of the tin or this leaflet). If there is not a match, the cards are left face up for a few seconds, so that all the players can see and memorise them, before they are then all turned face down in the same place.

Play continues clockwise, and the next player can turn over 3 cards. These can be new cards from the deck, old cards already on the table, or a mixture of both new and old. If all 3 cards turned over match, that player keeps them and turns over another 3 cards, etc. If the 3 cards are not a match, they are turned back over and play passes to the next player.

### **Game Over**

The game is over when all the cards from the deck are on the table face down and every player has had a turn sequentially with no matches found. The winner is the player with the most cards.

## **Sleek Seek Game ②**

### **Play**

Shuffle the pack and place the deck of cards face down. The youngest player goes first and turns over 1 card, placing it face up on the table. Play continues clockwise with each player turning over a card. As soon as ANY player sees three cards that match they must shout out 'Seek' and can now take the 3 cards (cards can match in 3 ways, as shown on the back of the tin or this leaflet). If 2 or more players shout 'Seek' at the same time, the 3 cards are removed from play. If a player calls 'Seek' in error then the player must place the last card they won face up on the table.

### **Game Over**

Play continues until all cards are face up on the table. The game is over when no more 3 card matches can be made. The winner is the player with the most cards.
